

Amendments to the Specification:

Please replace the paragraph beginning at page 10, line 1, with the following rewritten paragraph:

--Figure 1 is a perspective side view of the embodiment of a light source according to the invention;~~and~~--

Please replace the paragraph beginning at page 10, line 4, with the following rewritten paragraph:

--Figure 2 is a top view of the embodiment of Figure 1;
and

Add the following new paragraph on page 10, between lines 5 and 6:

--Fig. 3 is a schematic circuit diagram illustrating the series connection of the heating element and filament to the power supply.--

Please replace the paragraph beginning at page 10, line 32, with the following rewritten paragraph:

--The filament 2, which is in the form of a cylinder jacket, is attached in a simple manner to a power supply conductor 5 ~~for~~ and in series with the heating element 4 as illustrated in Fig. 3. The heating element 4 or incandescent element in the form of a spiral is positioned in concentric and coaxial relationship with the filament 2. The filament 2 in turn is arranged in the bulb 1 in concentric and coaxial
